Gentlemen:

We are publishers of the Pictorial Map of New York City that is on display in nearly every museum in the city. The Map is handsomely lithographed in three colors, and shows the various important buildings and other points of interest in their locations.

We should be glad to contribute a copy of our De Luxe edition, which is suitable for framing, to your library upon receiving your advice.

Yours very truly,

The Arthur Crosby Service

Gentlemen:

Thank you for your letter of April 25th: As we do not have available wall space for the map which you offer us, we are under the necessity of declining your generous proposal.

Very truly yours,

Secretary.
